## CLEARY IS BOUND OVER FOR MURDER

Town Clerk Who Killed Son-In-Law Waived Examination

## POLICE GUARD HOUSE

While Funeral of Victim Is Being Held—Young Widow Unable to Be Present On Account of Illness and Her Condition Is Growing Serious.

(ASSOCIATED PRESS TELEGRAM)  
Haverstraw, N. Y., July 27.—William V. Cleary, town clerk of Haverstraw, who on Thursday last, shot and killed his son-in-law, Eugene M. Newman, waived examination in court today and was held for the action of the September grand jury.

While district Attorney Thomas Gagan was busy working out the details of the arraignment of Cleary, the funeral service for young Newman was being conducted yesterday from the home of his grand mother, Mrs. James H. Kennedy. Police guarded both ends of the street in which is the Kennedy residence. Only the family and close friends of the slain youth were admitted.

In the county jail at New City, Cleary was visited yesterday by his wife and Frank Comiskey, an attorney of Nyack, who has been retained to defend him. Mr. Comiskey said that Cleary was sane. There had been reports that he was irrational and Mr. Comiskey's declaration is taken to mean that insanity will not be used in his defense.

The weapon with which Cleary shot young Newman has not yet been found and it was said that Cleary would be asked to open the big safe in the town clerk's office here after his arraignment today in the hope of finding it there.

Mrs. Anna Newman, the young widow, is still ill at the Cleary apartment in New York City. She was unable to attend the funeral here and it was said that her condition was growing more serious.

## RAILROADS MUST BOW HEADS TO INCREASED TAX

(ASSOCIATED PRESS TELEGRAM)  
Cleveland, July 27.—Railroads entering Cleveland will pay taxes on \$20,000,000 more than they do now when the tax commission finishes its appraisal of the rights of way, according to a prediction made today by Tax Commissioner Fackler. The commission today raised the valuation of the Erie railroad right of way in Cuyahoga county to \$800,000. It was formerly \$211,000. The Baltimore and Ohio was raised about 40 per cent. last week.

The commission is now appraising the Pennsylvania, Big Four and Lake Shore rights of way.

## WELCOMED THE DELEGATES.

(ASSOCIATED PRESS TELEGRAM)  
Washington, July 27.—Delegates to the twenty-first annual convention of the United States League of local building and loan associations were welcomed here today for their three days' session. The annual reports of President W. J. Bayersdorfer of Shreveport, La., and Secretary H. F. Cellarius of Cincinnati, were features of today's program.

## Order Issued Abolishing Imprisonment For Deserters From Navy In Times of Peace

(ASSOCIATED PRESS TELEGRAM)  
Washington, July 27.—Secretary Daniels' drastic order calling for the abolition of imprisonment for desertion from the navy in times of peace was the subject of general comment in naval circles here today. The order provides for the summary dismissal instead of imprisonment of bluejackets who overstay their leave, get drunk while on shore or commit similar breaches of discipline and for the honorable discharge of men who want to quit the service by merely refunding certain enlistment allowances.

The new regulations which are a radical departure from the methods which have heretofore prevailed in the navy, was issued in accordance with a referendum vote of the officers of the navy, a majority of whom are said to have favored the action. The secretary stated he had become convinced that the general situation under the old regulations in dealing with the enlisted personnel who had not desired to remain in the service was untenable and not

## Eighteen Year Old Widow and Husband Her Father Killed

Eugene Newman, 18 years old, walked into the office of Town Clerk William V. Cleary in Haverstraw, a village not far from New York City, the other day to announce his marriage to the politician's daughter. The girl, the same age, and the young man had known each other

for many years. They had run away and got married. The young man decided that he would seek out his new father-in-law and ask forgiveness. Instead the town clerk shot him to death. The young widow was prostrated. Her father is now charged with murder in the first degree. His defense may be insanity.

## QUARREL AND WIFE NEARLY KILLS HUSBAND

(ASSOCIATED PRESS TELEGRAM)  
St. Clairsville, O., July 27.—John Porseach is dying as a result of being cut and lacerated by his wife, during a quarrel at their home near Maynard, and his wife today is in jail here, charged with the crime. Mrs. Porseach it is charged broke a beer bottle over her husband's head, and after the doctor, who had been called to sew up the wound had left, the quarrel was renewed and the woman, it is alleged, cut a deep gash in the back of her husband's neck, severing an artery. Death is expected momentarily.

## DECIDES TO ABANDON HIS REVOLUTION

(ASSOCIATED PRESS TELEGRAM)  
Mexico City, July 27.—General Pascual Orozco, Jr., has abandoned his independent revolutionary movement and intends shortly to leave for Canada, according to messages intercepted here. He is said to have notified his wife who has been in Canada for some time, that he will join her soon.

The government peace delegates received the final instructions today from the acting foreign minister and expect to leave before night for San Luis Potosi.

## DEPORTING FOREIGNERS FROM PRISON

(ASSOCIATED PRESS TELEGRAM)  
Columbus, July 27.—Officials of the Ohio state penitentiary are riding the United States of some of its undesirable inhabitants and during the past few months several foreigners serving sentences in the state prison have been deported. Today application papers to deport Lorenz Marchini, an Italian, were mailed to the government authorities and when they have been properly filled out the man will be released from the prison and sent back to Italy.

In order to release a prisoner so that he may be deported it is necessary that he be given a condition pardon which in its provisions prevent the man from ever again entering the United States or any of its possessions. Marchini was received at the prison Dec. 26, 1913, to serve an indeterminate sentence for manslaughter. He was convicted of the crime in Lucas county after he had been in America only four months.

The prison berrillon department got into communication with several foreign berrillon bureaus and it was learned that Marchini had at one time served a sentence in a prison in Germany for killing a man.

## CRAZED HE SAYS; SADLY REPENTS HIS MAD DEED

(ASSOCIATED PRESS TELEGRAM)  
New York, July 27.—Charles Stewart Parnell, the Brooklyn young man who shot two men and a woman on a southbound Boston express Saturday night soon after it entered the limits, bitterly repents his mad action.

"I never meant to shoot anybody," he said in the Bronx county jail yesterday. "I was crazy. My wife and I had quarreled and she left me to go to her people in Springfield, Mass., and my domestic troubles upset me." Parnell is constantly asking his jailers for news of the condition of his victims. Austin Dyce, the sailor, who was probably fatally shot, was still alive early today, but the physicians say he cannot recover. Mrs. Beattie Thorsen, who was shot in the face, is recovering.

James E. Ferguson, of Temple, anti-prohibitionist, nominated for governor by 30,000 to 40,000.

## CAILLAUX TRIAL IS RESUMED

Wife Of Former Premier Is Much Calmer After Rest

## UNDER SEVERE STRAIN

Suffers Two Fainting Spells Last Night But Able to Resume Her Seat In Court Today—Will of Murdered Editor Read In Court.

(ASSOCIATED PRESS TELEGRAM)  
Paris, July 27.—When Madame Caillaux took her seat today in the criminal court at the palace of justice for the seventh day's hearing of her trial for the wilful murder on March 16 last, of Gaston Calmette, editor of the Figaro, she appeared much calmer than on the preceding days. She had, however, suffered from two fainting spells last night as a result of the severe strain she underwent on Saturday when she swooned during the reading of the love letter sent to her by Joseph Caillaux, former French Premier, while he was the husband of Madame Gueydan.

As soon as Judge Louis Albanel and his three associates had taken their seats on the bench, M. Caillaux demanded to be heard. He said:

"The Figaro having accused me today of suborning witnesses, I should like to submit to the court some authentic papers concerning the late Gaston Calmette's relations with the Hungarian government. I have hesitated to use them, but I have decided to do so in view of the Figaro's attitude. I desire also to read the late M. Calmette's will."

Maitre Chénier: "How did you get it?"

M. Caillaux: "In the same way that you got my letters."

M. Caillaux then proceeded to read the will. When he had concluded, M. Caillaux handed a bundle of papers to the presiding judge. They were not read in court.

In his speech M. Caillaux had mentioned the name Philippe Glaser, as a signer of the documents with Gaston Calmette. Glaser is one of the leading editors of the Figaro.

"After the reading of the will, which disposed of \$2,600,000, M. Caillaux said:

"We may well be astonished at the singularly rapid increase of M. Calmette's fortune. In our middle class families it would take 150 years for such a fortune to accumulate."

M. Caillaux afterwards said: "I shall not repeat what I have said already about the bonds which united the Figaro to certain foreign personalities. I merely inform the jury that I place at the disposition of the court authentic documents signed by Gaston Calmette, stipulating in the clearest possible fashion the conditions under which the Figaro would work in the interests of the Hungarian government. Every Frenchman will realize today what would have been the effect of that work. These documents are of unimpeachable authenticity. They were given me by Count Karolyi, chief of the Hungarian radical party."

## SYNDICATE OF OHIO ICE AND COAL CONCERNS

(ASSOCIATED PRESS TELEGRAM)  
Cincinnati, July 27.—Several of the largest of Cincinnati's ice and coal companies are interested in the formation of a \$15,000,000 syndicate to be made up of the leading concerns of this nature in Cincinnati, Cleveland, Columbus, Dayton and Toledo, according to information given today by the head of one of the largest ice companies in the city. The new concern, which probably will be known as the Ohio Consumers' Company will probably have headquarters in Cleveland, and will operate the properties of the larger concerns in the five Ohio cities under a single management.

Greater economies will thus be made possible, it is contended, and the combination of the ice and coal business, affording practically continuous yearly operation of the equipment will insure improved service at less aggregate cost and leave a satisfactory margin of profit.

## Former Wife of Ex-Premier Caillaux, and Lawyer Mme. Caillaux Relies On

Mme. Gueydan, former wife of Ex-Premier Caillaux, whose present wife is on trial in Paris for the murder of Gaston Calmette, editor of Figaro, was the most sensational figure in the courtroom. Her accusations against Mme. Caillaux, whom she accused of having stolen her husband, aroused sentimental Paris to a high degree of excitement.

It became the duty of Maitre Labori, the famous French criminal

lawyer, and counsel for Mme. Caillaux to hold down the former wife. He worked hard to keep her sentimental outbursts within limits, but she managed to create several dramatic situations till she seemed to have the sympathy of the audience. She was applauded several times, and it was feared by the defense that this feeling was communicated to the jurors and may have an effect on their deliberations.

## Asleep On Railroad Track, Harley West, Aged 30 Meets Terrible Death Sunday Morning

Harley West, aged 30 years, who is employed as driver of one of the delivery wagons of William Graef, agent for the Terre Haute Brewing company, was found dead on the tracks of the B. and O. railroad, at the Stevens street crossing in North Newark, about 4 o'clock Sunday morning.

The body was fearfully mangled, the head being completely severed from the body, both legs crushed off about the knees, and other cuts and bruises. The body was discovered by neighbors, and it is not known definitely what train struck and killed him, but it is supposed that it was freight train No. 27, north bound.

Ray Kidwell was the last person who saw West alive, and the manner of the accident is conjectural, but the probabilities are that he fell asleep on the track.

Kidwell states that West, Oscar Morris and he attended a dance in Grant street Saturday night, and got on the last car east, shortly after midnight. This car did not run to North

Newark and the three young men had to walk to their homes.

West had on a pair of new shoes which hurt his feet and he took them off, and was walking in his stocking feet. Morris left the other two and went to his home, while Kidwell and West walked north on the tracks from the Ruggs Halter Works to the corner of Stevens street, where they stood talking for some time. Kidwell left his companion to go to his home in Cottage street, and never saw West until he viewed his dead body in the Bazler & Bradley morgue, where it had been prepared for burial.

The dead man is married and leaves a widow and one son, but he lived at the home of his parents, Mr. and Mrs. J. C. West at 43 Stevens street. The latter has not been well and the shock of her son's awful fate has nearly prostrated her.

The funeral took place from the parents home at 3 o'clock Monday afternoon, interment being made in Cedar Hill cemetery.

## MEXICANS HAVE ANOTHER HITCH IN SETTLEMENT

(ASSOCIATED PRESS TELEGRAM)  
Washington, July 27.—Assembling of the conference at Saltillo to arrange for the transfer of the administration in Mexico City anxiously was awaited here today. A hitch during the meeting over Carranza's attitude toward the question of amnesty for his enemies appeared as a possibility. Nevertheless, Washington officials clung to the hope that a middle ground might be reached for peaceful adjustment of the problem.

New advices from Tampico indicated the constitutionalist leader was not disposed formally to grant amnesty prior to his occupation of Mexico City. People in the territory once controlled by Huerta object to that policy, they have urged the new provisional president not to turn over the government until he has obtained from the constitutionalists the proper guarantees and Carbajal has received many offers of support in case Carranza continues to insist upon surrender without conditions.

Reginaldo Cedpeda one of the Carbajal's envoys was to confer today with Carranza at Tampico, while the other members of the peace commission, General Lauro Villar and Judge David Gutierrez Allende were to start for Saltillo.

Felicit Villareal acting secretary of the treasury in the constitutionalist cabinet, declared in Washington that unconditional surrender from Carbajal was all that Carranza would accept.

## NO LIMIT ON THE SALARY OF SUPERINTENDENT

(ASSOCIATED PRESS TELEGRAM)  
Columbus, July 27.—County boards of education may pay county superintendents as high a salary as they please. Attorney General Hogan today recalled his former opinion to Prosecutor Cyrus Locher, of Cuyahoga county that \$2,000 was the maximum which county superintendents might receive under terms of the Lowry law. He said he would consult Representative Lowry and others who drew the bill to learn their intentions and probably would reverse his opinion.

Few county boards will be affected seriously by the recalling of his opinion, Attorney General Hogan said.

## Government Preparing to Distribute Millions For Movement of the Crops

(ASSOCIATED PRESS TELEGRAM)  
Washington, July 27.—Preparations for the distribution of approximately \$34,000,000 of government funds to be deposited in National Banks throughout the country to facilitate the marketing of crops and for other "legitimate business purposes," in accordance with Secretary McAdoo's announcement were being made today by Treasury department officials. While that sum has been decided upon the secretary stated that he stood ready to increase the amount to any extent to meet the needs of the country.

"Decision to distribute government funds again this fall was the result of replies from five thousand national banks to a recent treasury department circular asking whether any unusual demand for money was expected this fall and for what purposes. The policy of distributing for crop moving purposes was inaugurated last year when about \$35,

## MEDIATION MAY AVERT A CRISIS

Wish General That Clash Of Arms In Europe May Not Occur

## SITUATION IS IMPROVED

According to Servian Legation In London Which Has Been Attributed to the Influence Exercised by Russia—Conferences of Government Leaders.

(ASSOCIATED PRESS TELEGRAM)  
London, July 27.—Glimmers of hope flickered in the darkened sky of European politics today and the wish was general that the efforts of the great European powers to avert a clash of arms which might involve many nations would be successful.

While all the powers were preparing for possible eventualities, their statements with Sir Edward Grey, the British foreign secretary at their head were endeavoring to bring together the governments at issue with a view to mediation.

At the Servian legation in London, the view was held that some improvement had taken place in the situation and this was attributed to the influence exercised by Russia.

Alex. Georgevitch, the first secretary, said:

"We have complied with everything that does not impair our sovereignty. We hope that Austria-Hungary in the interest of peace will recognize that consideration is due to an independent state and so avert war. If, however, Austria-Hungary wants war, she will have seen that we are prepared to accept it in the interests of the dignity of our state."

The fact that Austrian ambassadors abroad were willing to discuss the controversial points with foreign governments, and especially with Russia, led to the belief that an outlet for the deadlock would be found.

The stock markets in London and the European capitals still displayed a panicky feeling although it was not as pronounced as on Saturday.

The Italian and German ambassadors here saw Sir Edward Grey this morning, with what results could not be ascertained.

The members of the foreign diplomatic corps and officials of the British foreign offices were early astir. Sir Edward Grey, like Premier Asquith, cut short his week-end vacation and reached London early this morning. After conferences with Winston Spencer Churchill, first lord of the admiralty, and Premier Asquith, Sir Edward received the Italian ambassador with whom he had a long talk. It was understood that an endeavor was made during this conference to avert (Continued on Page 2, Col. 1.)

## GERMAN BANKERS TO PROTECT THE STOCK MARKETS

(ASSOCIATED PRESS TELEGRAM)  
Berlin, July 27.—The leading bankers of the German capital met today and agreed on measures to protect the stock market and to encourage the public not to unload securities. ## MEDIATION

(Continued from Page 1.)

a resort to arms by Austria-Hungary and Serbia.

A most serious view of the Austro-Serbian situation is taken here and every effort is being made by England and her ambassadors to find some way out of the crisis. Many of England's diplomatic representatives were on their summer vacations, but hurried back at once to their posts.

The London stock exchange which opened half an hour earlier than usual, was comparatively calm at the

opening, the opinion prevailing that war would be averted. The market, however, soon became panicky and prices began to slump in all directions, the demoralization of Saturday being repeated. British consols which opened nominally at 72 3/4 dropped to 73 and then by quick stages to 71 1/2, or nearly two below Saturday German, Austrian and Russian bonds went down from 1 to 2 points and practically the whole list followed the example. This was largely due to compulsory liquidation on local and continental account before the settlement which commenced for general securities today. Canadian Pacific were the greatest sufferers, the continent selling them heavily. They were offered at \$176 1/2 or \$7 below parity, a loss on the fortnight of something like \$20. Several active American securities fell from \$5 to \$15.

(ASSOCIATED PRESS TELEGRAM) London, July 27.—It was reported today that Sir Edward Grey, British foreign secretary, had made successful representations to Germany, Italy and France for a conference between the representatives of those countries in England on the Austro-Serbian situation with a view to co-operate mediation.

The news that hostilities between Austria-Hungary and Serbia have not begun gave Europe in general the hope today that war might be averted. There are, however, little change in the situation and the more optimistic feeling was largely based on the belief that the German emperor who returned to Potsdam today from his cruise in northern waters, would throw his influence into the balance in favor of a peaceful settlement of the dispute.

Another factor in favor of a peaceful arrangement was that the Austrian ambassador in St. Petersburg had shown willingness to discuss matters with the Russian foreign minister.

It was said this morning that Austria-Hungary would not move her forces against the Serbian capital tomorrow which is confirmation of a statement made by the Austrian ambassador in London yesterday that Austria-Hungary desired to give Serbia further time to consider her reply to the ultimatum from Vienna.

Outside of Austria-Hungary and Germany the reply by Serbia is regarded as a very fair one as it grants all the demands which a sovereign state could grant.

It is pointed out that there is little use in Serbia applying for mediation however, since Austria-Hungary has declared the matter to be between her and Serbia and in this she is backed by Germany and Italy, her partners in the triple alliance.

NO ORDERS HAVE BEEN ISSUED TO ARMY AT BERLIN

Berlin, July 27.—The German Crown Prince arrives at Potsdam tonight to join the other members of the imperial family.

The military element in Germany calmly awaits the outcome of the international crisis. It is stated that no orders have been issued to the army in that direction, and that the customary furlough to a proportion of the soldiers in order that they might help in the field work at their homes during the harvest have not been interrupted.

One of the newspapers prints the statement that the German high sea fleet had been ordered to concentrate in home waters but the German admiralty says no such instructions have been issued and that the ships will remain in Norwegian waters for the present.

The general public in Berlin takes a somewhat calmer view of the situation as time passes without the occurrence of the dreaded catastrophe of armed conflict and on reports of the proposed mediations of the powers between Austria-Hungary and Serbia.

The German foreign office as yet, however, professed to be without any information as to definite steps having been taken by the mediatory powers either at Vienna or St. Petersburg regarding the Russian attitude.

AUSTRIAN VIEW OF THE REPLY FROM SERBIA

(ASSOCIATED PRESS TELEGRAM) Vienna, Austria, July 27.—A communication issued by the Austro-Hungarian foreign office today sets forth the Austrian view of the Serbian reply to Austria's note demanding the cessation of the pan-Serbian agitation and the punishment of those concerned in the assassination at Sarajevo, of Archduke Francis Ferdinand and his consort. The communication also gives the reasons for Austria's dissatisfaction with Serbia's reply. It follows:

"The object of the Serbian note is to create the false impression that the Serbian government is prepared in great measure to comply with our demands.

"As a matter of fact, however, Serbia's note is filled with the spirit of dishonesty which clearly lets it be seen that the Serbian government is not seriously determined to put an end to the culpable tolerance it hitherto has extended to intrigues against the Austro-Hungarian monarch.

"The Serbian note contains such far reaching reservations and limitations not only regarding the general principles of our action but also in regard to the individual claims we have put forward that the concessions actually made by Serbia become insignificant.

"In particular our demand for the participation of the Austro-Hungarian authorities in investigations to detect accomplices in the conspiracy on Serbian territory has been rejected, while our request that measures be taken against that section of the Serbian press hostile to Austria-Hungary has been declined and our wish that the Serbian government take the necessary measures to prevent the dissolved Austrophobe assertions continuing their activity under an-

other name and another form has not even been considered.

"Since the claims in the Austro-Hungarian note of July 23, represent the minimum of what is necessary for the establishment of permanent peace with the southeastern monarchy, the Serbian answer must be regarded as unsatisfactory.

"That the Serbian government itself is conscious that its note is not acceptable to us is proved by the circumstance that it proposes at the end of the note to submit the dispute to arbitration, an invitation which is thrown into its proper light by the fact that three hours before handing in the note a few minutes before the expiration of the time limit the mobilization of the Servians took place."

It was pointed out here today that Austria-Hungary being a signatory to the second Hague convention would be obliged formally to declare war, but as Serbia did not sign that convention such a declaration might perhaps be regarded as unnecessary to this instance.

PRES. WILSON SAYS U. S. WILL REMAIN NEUTRAL

(ASSOCIATED PRESS TELEGRAM) Washington, July 27.—The gravity of the European situation was reflected in an official dispatch from St. Petersburg today saying the Russian minister of war had said he considered war between Russia and Austria almost inevitable.

His statement was made after the Russian ministry had issued an official declaration that Russia was greatly disturbed and could not remain indifferent in the crisis that had arisen between Serbia and Austria-Hungary.

The order for the complete mobilization of the Russian army was confirmed.

President Wilson said today, in answer to inquiries whether the United States would try to bring about peace in Europe, that he had not considered the subject, but that the tradition policy of the United States was not to mix in European affairs.

He intimated that in the present crisis the United States could do nothing.

SAYS SUIT IS TO BE FILED AGAINST TOD

(ASSOCIATED PRESS TELEGRAM) Columbus, July 27.—County Auditor Fred M. Sayre, will institute proceedings in justices court tomorrow charging criminal libel against David Tod of Youngstown, candidate for the Republican nomination for governor, owing to the latter's published statement accusing Mr. Sayre of demanding \$5,000 to run the Tod campaign in Franklin county.

This announcement of his intention was made today by Mr. Sayre's representatives, of the law firm of Webber, McCoy and Jones, whom Mr. Sayre has employed to represent him. The action will be brought in Columbus instead of Youngstown because of the fact that the Tod statement against which exception was taken by Mr. Sayre, was given out and published in Columbus. It was said today to be likely that Mr. Tod will come to Columbus today to fight the case.

The decision to bring the proceedings was reached by Mr. Sayre, after he and his attorneys had agreed to give Mr. Tod the maximum time to act under the 48 hour ultimatum to Mr. Sayre. This ultimatum was issued by Mr. Sayre last Friday and threatened that unless the candidate for Governor retracted his statement regarding the \$5,000 within 48 hours, criminal libel proceedings would be instituted. Theoretically the time limit would have expired Sunday, but the Sayre attorneys found that special delivery letters containing the ultimatum, which Mr. Tod had not been received by the latter until Saturday because of his absence, Friday, from his home at Youngstown. It was decided, therefore to denote midnight Monday as the expiration point of the time limit set and to file proceedings tomorrow if the retraction were not forthcoming.

The certainty of the suit is assured by the Tod ultimatum issued Sunday from Youngstown in answer to the Sayre pronouncement. The Tod ultimatum declares that its author will not retract and concludes as follows: "You may take this as a repetition and confirmation of my public statement relating to you and the \$5,000 indictment."

TOO MUCH TANGO CAUSES NEURALGIA

Violent neuralgia of the head generally attacks overworked women who lack sufficient sleep, fresh air and red blood.

With the prevalent craze for dancing at all times and places it is becoming noticeable that women whose blood is thin—anaemic—become subject to neuralgia pains when they dance too much and rob themselves of sleep and open-air exercise.

The woman who makes great demands on her strength, either by overworking or overindulgence, must keep her blood in condition or suffer. The pain of neuralgia is simply a sign adopted by nature to show that the nervous system is being starved because the blood no longer brings it what it needs. The one great cause of neuralgia is debility with anemia or bloodlessness.

Dr. Williams' Pink Pills are a tonic for the blood and nerves. They begin at once to enrich the blood and enable it to furnish the nerves with the elements they need to restore them to health. A booklet on the home treatment of nervous disorders that will enable you to help yourself will be sent free on request by Dr. Williams Medicine Co., Schenectady, N. Y. Your own druggist can supply you with Dr. Williams' Pink Pills.

## EXCITEMENT PREVAILING AT DUBLIN

(ASSOCIATED PRESS TELEGRAM)

Dublin, July 27.—The city of Dublin and the greater part of Catholic Ireland was today in a state of the greatest excitement over yesterday's conflict between the regular troops of the British army and the Irish nationalists which resulted in the killing of four persons and the wounding of many others, forty of whom were still in hospitals today in a serious condition. Day had dawned today before the police succeeded in dispersing the crowds marching through the streets singing patriotic songs and looking for soldiers of the second battalion of the King's Own Scottish Borderers on whom to inflict vengeance for the fatal events of yesterday when the Borderers were ordered out to prevent the landing of arms and ammunition for the Irish nationalists. The crowd finding that the soldiers had been ordered to remain in barracks attacked the royal barracks where the Borderers are stationed and clamored for the soldiers to come out. Finally the mob kicked down a gate of the barracks and fired a couple of shots, upon which bugles were sounded, the police came on the scene and the crowd was dispersed.

The nationalist leaders take the most serious view of the affair and will demand reparation from the government.

The landing of arms yesterday for the nationalists was carried out in a more daring manner than similar feats achieved by the Ulster unionists volunteers as it was effected in daylight. The yacht from which the arms and ammunition were brought ashore already had landed 2500 rifles and 125,000 rounds of ammunition at isolated points along the coast and these had been successfully distributed by motor cars among the nationalist volunteers. Yesterday's attempt was undertaken to show that the nationalists could do what the Ulster unionists had done.

The lord mayor of Dublin today demanded in the interests of the peace of the city that the battalion of the Scottish Borderers be removed. Movements in the barracks indicated that preparations were being made to send the regiment elsewhere.

The gates of the barracks were guarded by a strong force of police.

WILL DEBATE THE MATTER TONIGHT

(ASSOCIATED PRESS TELEGRAM)

London, July 27.—Premier Asquith, who heard of the fighting in Dublin while he was staying at his country home, immediately proceeded to London by motor car and arrived here in the early hours of this morning.

for war, he immediately took charge of affairs at the war office.

Information as to the "shocking occurrence in Dublin yesterday," as John E. Redmond, the Irish nationalist leader put it, was demanded immediately after the opening of the session of the house of commons today. Mr. Redmond was so dissatisfied with the meager information given him that he moved the adjournment of the house in order to debate the matter.

Augustine Birrell, chief secretary for Ireland, threw the blame for yesterday's conflict between the troops and the public, on the assistant police commissioner, who, he said, had requested the military entirely on his own responsibility. The official consequently had been suspended while an inquiry was made.

The nationalist members shouted, "he ought to be hanged."

The matter will be debated in the House tonight.

Beginning Early.

With the following story Margaret's father supports his opinion that adroitness is congenital in women:

One Saturday Margaret, aged four, was in deep disgrace. Four times since 2 o'clock she had run away to visit Mrs. Gilbert, her favorite neighbor, and was now paying for her crimes by detention in the house.

At 5 her father returned and sat on the porch reading his evening paper. To him in a few minutes Margaret sauntered out, her mind intent on carrying out her plans, and shortly suggested:

"Daddy, let's play you are the baby, and I am the mother."

Daddy agreed on condition that it must be a very little baby and one that would not be expected to move.

Thereupon Margaret, after a silence in which one could hear her brain currents crackle, said, "Now, honey, you be a good little baby and don't run away, while mother for a little while goes over to Mrs. Gilbert's."—New York Tribune.

The elimination contests will be held in various parts of the United States. The American team, composed of McLaughlin, Williams, Behr and Bundy, is of course, expected to win, but those who have watched the Australians say the victory will not be a walk over.

## MR. DEEDS TALKS OF MICHIGAN CASE

Dayton, O., July 27.—Referring to the dispatch from Lansing, Mich., telling of a fine imposed by the State Supreme Court against the National Cash Register Company under the Michigan anti-trust law, Vice President E. A. Deeds, of the Register Company said:

"We have not had an opportunity of examining the Court's opinion in detail, but our understanding is that this result was brought about by the interpretation which the Court places upon the Michigan statute. Since the bringing of this suit in 1909, and for a long time prior to that, we are aware of no conduct on the part of our agents which transgressed the laws of Michigan, or of any other state. We felt that this was a sufficient defense, but the Court seems to have held otherwise. Nevertheless, we shall endeavor to shape our business so as to work the least possible inconvenience to all concerned."

## BIG CROWDS AT BEAUTIFUL BUCKEYE PARK

Delightful Program of Music by Cabaret Singers Direct from New York City.

One of the largest crowds of the season was at Buckeye Lake, Park Sunday afternoon and evening, and all were well repaid for the trip for Manager Will D. Harris provided an excellent program for their entertainment.

The famous Buffalo Five, colored entertainers and cabaret singers, who are playing an engagement at the Kaiserhof at Columbus, sang all the popular and late metropolitan songs from the stand in the park. Mr. Harris was at great expense to secure this aggregation and his patrons were more than delighted with the entertainment.

On the stage of the pavilion with McCardie's seven-piece orchestra, four cabaret singers furnished a delightful melange of popular airs. Manager Harris secured the Misses Millie DeLasky and Rosa B. Miller, direct from one of the large summer roof gardens in New York, and has booked them at the Park for a limited engagement. In addition Miss Adelaide Bowser and Al Kaino assist in the song "fest" and their splendid rendition of the various numbers kept the pavilion thronged all day and evening. These popular cabaret singers are without exception one of the highest classed acts to be found at any similar summer resort. Mr. Harris states that he will continue to furnish the best entertainment during the balance of the season.

The free moving pictures were greatly enjoyed and the park space in the immediate vicinity was packed with people.

The dining floor was filled at all times and pavilion manager, Hoover, was kept busy while Attendant E. Manly Norris saw to it that all strangers were well taken care of. The McCardie orchestra was at its best and thousands listened to the music and watched the dancers. Manager Harris promises the same high class program next Sunday and throughout this week there will be special dances and added attractions. The Ohio Electric is maintaining excellent service with plenty of cars.

## Boosting Newark.

Obviously the way to make a city grow is to locate new industries or to encourage the growth of factories already located in the town and the Board of Trade is to be commended for its effort to raise a factory fund to be used for the purpose of bringing new industries to Newark.

However, the question of daily bread is not the only one that determines a person's residence. If a man and his family enjoy living in a place, if they feel that it has good schools and good public services, they will frequently keep on living there even if they see greater possibilities in the way of money elsewhere.

If a town is clean, comfortable, attractive, well equipped with modern facilities, it will acquire a reputation extending even beyond the limits of its own state. People will be ready to go there to live if opportunity offers. They will be slow to move away. Owners of land and business men will see their holdings rise in value. There will be more chances for young people to make comfortable livings.

Take Rockford, Ill., for example. There is a beautiful city near Chicago not much larger than Newark. It is delightfully clean, has well paved streets, all well oiled, beautiful public parks and well governed public utilities. The public library is worthy of the name, the playgrounds are well equipped and many of the factory grounds are beautifully parked. Residences and the larger buildings are built after plans drawn by trained architects and 99 out of every 100 citizens take great pride in the appearance of their yards—backyards as well as dooryards. Best of all, the people of Rockford are boosters; they are all saying a good word for their town and their actions and works show they have a just pride in their town.

If Newark could import some of the spirit of Rockford or if a delegation of representative Newark men could visit Mankato, Minn., or any one of many of the progressive Western cities and see how they "do things" this old town would take on new life and would march forward with greater progress.

The spirit of co-operation in every public enterprise is more valuable than ambitious schemes of town booming, successful and helpful as these frequently are. Here is where towns in their corporate capacities have wholly different temperaments. In one place there is little spirit of pulling together. If one man starts a new idea the rest all criticize "It is none of their funeral" and they would rejoice at failure. In other places—like Rockford, Mankato, Minneapolis, Sioux Falls, S. D., Salina, Kans.—there exists the feeling

of team work. It makes people rally around each other in any public undertaking. They also rejoice in the prosperity of their own townspeople. There is no feeling of jealousy and envy. If a town has that spirit no power on earth can prevent its growth. If every one were but willing to give a few hours every week to some cause for community betterment how this old town would thrive and what great advances could be made!

## Look Out For Maelstroms.

"For years the school levy has been a permanent fixture in this state, in order to keep the school system free of political manipulation, and it is this very school levy that has been reduced by this rubber stamp special session of the governor, and from now on the schools of the state will be thrown into the maelstrom of politics."

This is only a spoonful of the mush ladled out by Hon. Frank B. Willis' press agent at Sandusky. It is unthinkable that a statesman measuring over six feet in height and having a very loud voice would ever say such a thing. In 1902 Mr. Willis was the rubber stamp used by Governor Nash to impose taxes upon the industries of Ohio. He obediently introduced and uncomplainingly voted for the law bearing his name which levies a percentage tax upon every share of stock in the state. No one believes that Mr. Willis would be indiscreet enough to say anything about rubber stamp laws, especially the modern kind which take off instead of putting on taxes. The press agent did it, surely.

As for the school levy, it is wagged with a large red apple as the forfeit, that Mr. Willis cannot off-hand tell what the levy was in 1902 when he voted to fix it for the ensuing year or what it was at any time while he was a member of the general assembly. The school levy is NOT a permanent fixture because it is based upon the fluctuating enumeration of school children in Ohio. It is also measured by the tax duplicate of the state and after 1910, when the Democrats put into effect the one per cent. law, it was cut down from one mill to .335 of a mill. Even the capitation tax is not fixed. It has gone up from \$1.50 to \$2.00 since Willis became of age and may go down or up according to public sentiment. Nor will the reduction of the levy bring the schools into the "maelstrom of politics." Even legislators as independent and as free from bossism as Mr. Willis would not dare to vote against giving the schools sufficient funds to run them properly. Last of all, it is everywhere believed that Mr. Willis does not know what a maelstrom is and the betting is 25 to 1 that he never saw one, even unconsciously.

## Another Chautauqua.

Before Newark's first Chautauqua came to town a few days ago many people imagined that a Chautauqua is a kind of camp meeting, a religious revival or a series of temperance lectures. It took the Chautauqua itself to show the general public just what it really is—a series of high class entertainments at moving picture prices.

Newark's first Chautauqua was a pronounced success, thanks to the Newark Federation of Women's Clubs, and assurance is given that the Chautauqua will be an annual affair in Newark.

The fourth annual assembly and Summerland Beach Chautauqua will open at Buckeye Lake next Sunday and will continue until Aug. 13. The program is made up of lectures, sermons, music, magic, imitative recitals, humor and instruction. Summerland Beach is already a "tented city" and arrangements are being made to take care of the crowd that will be present. People from all over Ohio attend the Summerland Beach assembly.

Tuesday, Aug. 4, is to be known as Newark Day at Summerland Beach. The Newark Baptists are inviting all the Newark churches to join in hearing the Chautauqua program on that day. A special rate over the Ohio Electric line and the Fisher boat line, including admission to the assembly ground has been made.

## THE OLD WAY.

The old way was sane and simple: when we were sick we took some pills, and cured the rheumatism or the cold, and meagre were our doctor bills. We did not blame the microbe critters for all our ailments, pains and aches. We simply took a dose of bit-ter, and then we whipped our weight in snakes. My granny, in an old poke bonnet, her form attired in ancient garb, would seek the meadowland, and on it would hunt for the healing yarb. All noxious weeds that smelled and tasted like something that had long been dead, were much too precious to be wasted; they hung in bunches in the shed. Full often I have had a jag on of boneset tea, skunk root or sage; my granny'd brew the evil flagon, and I must drink it, or she'd rage. In those old time folks kept on living until they shrunk and blew away; their women folks were always giving them cups of yarb tea, day by day. The father lived till he was ninety, nor heard of germs, his long years through, when he was feeling tough a pint he of boneset drunk, and solace knew. But in these modern days microbes, diseases, are expensive things; from stomach ache to hydrophobia, they run up doctor bills, by jugs.

## HAD NARROW ESCAPE WHEN A TRAIN HIT RIG

Quite an accident occurred Monday at the B. and O. crossing north of the city on the water works road, leading from the Mt. Vernon road. South bound passenger train due in Newark at 12:30 p. m. struck a truck buggy in which Mrs. Martha Lusk and her brother were riding. The parties heard the whistle, but attempted to cross in front of the train, the engine striking the right rear wheel and throwing the occupants to the ground.

The train in charge of Conductor William Lamb, was backed up to the scene of the accident where it was found neither was hurt, and the only damage done was to the buggy. It was a narrow escape.

Three children were born of this marriage—Thomas, Clement and Charles Hindle, Charles Hindle being the only one of the sons living. In 1866 Mrs. Hindle moved to Newark and was married to James B. Walter Kier.  
Granville, O., July 27.—The sad intelligence reached Granville, Saturday night, of the death of Mr. Walter Kier, eldest son of Mr. and Mrs. T. M. Kier, at the private sanitarium in Columbus in which he had been receiving treatment. The news came as a shock to his devoted family, who had cherished hopes of his recovery from the favorable reports of the physicians. Mr. Kier had been a little over a month since this young man—so splendidly equipped for a successful career, with youth, education, hosts of friends and a lovely wife—came from St. Louis to enter upon the duties of the fine position in Newark which he had accepted. It was while engaged in these business details, with whole-souled enthusiasm that he was stricken, suddenly with what has proved a fatal malady, the result, probably of injuries received in an automobile accident some two years ago. Funeral services will be held at the Kier residence on Broadway, Tuesday afternoon at 2 o'clock, at which Rev. J. T. Newell, of the Granville Presbyterian church, will officiate. Interment in Maple Grove. The deepest sympathy of the entire community is extended to the sorrowing family.

"Cut out tea and coffee, my boy. They contain an irritant—caffeine—and you can't have a fluttery heart or sour stomach or a grouchy headache and do big business."

It's a mighty good plan: if tea or coffee puts you "off color," to quit it, and for a delicious table beverage, use

In either form—Regular Postum, which must be boiled, (15c and 25c packages) or Instant Postum, made instantly in the cup with hot water (30c and 50c tins)—Postum is good in any business.

## WOMEN AND BANKING

No development in modern business methods has been of more practical value to women than their widespread use of banking facilities of all kinds. In the handling of daily expenses a Checking Account affords safety and convenience, while for the building up of a surplus fund there is no better plan than the depositing of money regularly in a Savings Account.

This bank invites Household Accounts, subject to check, in any amount, and on money deposited in its Savings Department pays interest.

NEW YORK MARKET  
FEVERISH OVER  
THE WAR SCARE

(Associated Press Telegram)  
New York, July 27.—The local stock market opened amid scenes of great excitement today. Conditions in Continental Europe growing out of the Serbian crisis and accentuated by what appears to be a critical phase in the Irish troubles caused severe losses on foreign exchanges. The gravity of the situation may be judged from the fact that the Vienna exchange is to remain closed for several days, while the Austro-Hungarian bank rate was advanced without warning.

Prices held far better than in London, where quotations for Americans were down from 2 to almost 7 points. Canadian Pacific which yielded over six points in London, opened here with a loss of 3 1/8 points. Declines of 1 to 2 1/2 points were recorded in the initial trading by St. Paul, New York Central and Denver and Rio Grande preferred and many other active stocks. Steel and Reading were heavily dealt in at a relatively moderate recessions. The market continued feverish throughout the first hour with further weakness in Canadian Pacific which extended its loss to four points.

Leading bankers were in active communication with their European correspondents and the tenor of advice received from them offered little ground for encouragement. It was the general opinion, however, that means would be found to localize any conflict between Austria and Serbia. Over a hundred thousand shares changed hands in the first hour and of that amount, fully one-fifth was credited to Europe.

London, Paris, Berlin and other centers continued to sell here long after the close of the markets there. Sentiment was made more pessimistic by further gold engagements of \$6,000,000 for Paris and London, making a total of over \$12,000,000 on this the third movement of the year, and a total of about \$100,000,000 since January 1.

A peace conference tended to restrain the bulls without, however, causing any important reaction in prices. After opening to the 2 1/4 above Saturday night, the market held firm at around the top figures reached. Corn strengthened with wheat. Hot dry weather counted also against the bears. The opening which was 3/4 to 1 1/4 higher, was followed by some additional gains.

While experiments are being made to produce a horseshoe suited to modern roads, writes a correspondent, I wonder whether anybody remembers the book written by the Rev. J. G. Wood, the famous naturalist, in which the argument was put forward that horses should not be shod at all. He declared that the hoof could adapt itself to any kind of land surface, that although it would become soft when the horse was out on grass land it hardened when the pasture was stony or pebbly, and that the practice of nailing on shoes and putting away the "frog" or sole of the hoof was a clumsy and useless expedient. He gave as proof photographs of the hoofs of a horse driven shoeless by a doctor who had a city practice.—Manchester Guardian.

## EARTHLY WEALTH HEAVENLY RICHES

### Love and Benevolence Integral Parts of Righteousness.

### GOD'S BLESSINGS IMPARTIAL

**Ours the Wealthiest Period of History.**  
But Faith and Godliness Are on the Decline—Great Increase of Selfishness—An Integral Part of Sin—Lesson to the Church of Christ—A Good Foundation—Against the Time to Come—Changed Conditions Under the Messianic Kingdom—Removal of the Stony Heart—Substitution of a Heart of Flesh—Rich in Character—Likeness to Our Heavenly Father.

July 26.—Reports from more than one hundred cities indicate great public appreciation of THE FIOTODRAMA OF CREATION. This noble effort to turn attention back to the Word of God is having the desired effect wherever it is exhibited. No one can see it without having his heart irresistibly drawn toward the Giver of every good and perfect gift, who so loved the world as to give "His Only Begotten Son, that whosoever believeth in Him might not perish, but have everlasting life."

Today Pastor Russell preached the text, "So is he that layeth up treasure for himself, and is not rich toward God."—Luke 12:21.

The Pastor began his discourse with the declaration that ours is the day of Wealth. Nothing to compare with it has ever been known in the world's history. Not merely have we discovered rich deposits of gold, silver and precious stones; not merely are these being mined in a provident and successful manner, with which nothing in the past could compare; but additionally the world is growing richer in every conceivable way.

This statement was illustrated by reference to the growth of our cities in size and beauty, in sanitary conveniences, in spacious parks, in good paved streets and boulevards; and to our industries, which are multiplying machinery perfected within the last fifty years and turning out products of convenience and value. These add greatly to the world's comfort and material wealth, and are not merely perishable articles such as clothing and furniture, but substantial edifices, etc. Vast libraries, both public and private, are being acquired. Many former luxuries are becoming almost necessities, because of the facility with which they are produced. All these things, and many others, constitute riches, one glance at which would amaze our ancestors.

The speaker then asked a series of questions such as appeal to all thoughtful persons. Are we as a race, he inquired, growing rich toward God? Is not the very reverse true? Are not faith and godliness on the decline? Is it not true that within the last fifty years the love of money, which the Apostle declares is "a root of all evil," has intensified? Is it not true that financial greed has become so strong as to make necessary Pure-food Laws for the protection of the lives of the people—because life and health were in jeopardy?

Attention was then called to the fact that although we are better housed, better fed and better clothed than were our forefathers, yet there is a general condition of unrest, due to trust in riches. Despite all our modern safeguards of police and detective systems, despite our telegraph, telephone, etc., human lives and property are still in peril because of the hunger for wealth everywhere prevalent.

"Whose Shall These Things Be?"

The Pastor then discussed the parable from which his text is taken. In our Lord pictures a man whose lands were fallen in pleasant places. The smiling sun and the genial showers prospered his undertakings, and his wealth grew apace. To him came opportunities for helping friends, neighbors and relatives less favored—opportunities for turning his material wealth to good account in the cultivation of the generous traits of his nature and thus for developing more and more the Divine character; for God scatters His blessings of sunshine and shower upon both the evil and the good.

But instead of growing richer in character through the cultivation of noble qualities, this rich man permitted selfishness to dominate him. He pulled down his barns in order to build greater ones. Instead of dispensing the wealth which Divine providence permitted to flow into his lap, he accumulated more. Many, alas! today are following his example. These say to themselves, "I will accumulate wealth, and then will say to my soul, 'You have plenty; eat, drink and be merry.' I think not particularly of your less favored brethren and neighbors, nor of the hopelessly poor; live for yourself." Thus in the parable the Master has drawn a picture of practically every man in the world, some of whom are really doing these things, and others

of whom are longing for the opportunity to do so.

**Here the Lord's Estimation.**  
Commenting upon the Master's estimation of the foolish rich man, the Pastor asked, If the Lord declared that the rich man of the parable was a fool, what may we suppose is His estimate of the masses of humanity to-day—blessed as men never before were, privileged as men never before were, responsible as men never before were for the use of money? Ains! he declared; we fear that the Lord is not well pleased with the world in its scramble for wealth, witnessed today on every hand. In our text, the people of God of today have a reminder that all have the opportunity to cultivate the Christ-like spirit of generosity, helpfulness and brotherly kindness.

The speaker then demonstrated that the Lord does not address His reproval and admonition to the world, but merely to His Church—the consecrated few. The world, he declared, is about to learn a great lesson along this very line of selfishness. Having sown to the wind the seed of selfishness, it is about to reap a whirlwind of trouble, the fruitage of selfishness, in which the interests of rich and poor will clash in the conflict between Capital and Labor, between those who have secured wealth and those who will strive to take the wealth from them—"A Time of Trouble such as was not since there was a nation."

Are any so blinded as not to see the awful growth of anarchy, he asked, which is gradually settling down upon the highest type of civilization to which the world has ever attained? Are there any so blinded as to be unable to perceive that the conflict will be along the lines of selfishness—desire to hold on the one part, and desire to acquire on the other?

The Pastor explained that according to the Scriptures God is not now appealing to the world; for well He knows that so intense is the spirit of avarice that such an appeal would be useless. God is therefore permitting the world as a whole to learn its great lesson, that selfishness is an integral part of sin, even as love and benevolence are integral parts of righteousness. There is no doubt, he declared, that by the time the poor world shall have fully learned its lesson of the terrible results of selfishness it will be ready to cry out for Divine assistance.

When that time comes, the speaker claimed, God's means of assistance will also be ready. The Messianic Kingdom will be inaugurated, and a Reign of Love will be established, which will contrast sharply with present conditions, and which will bring blessed results of peace, love and good will amongst men. Since God is both loving and wise, we may reasonably assume, he believes, that there is no better way than this whirlwind of trouble for teaching the world its needed lesson on this subject.

**The Lesson to the Church.**  
It was then shown that God's lessons are now for the Church—not the church nominal, which is merely a more civilized section of the world, but the Church real, the saintly people of God in and out of the various sects and parties, and of every nation, kindred and tongue. Anxious to know and to do the will of God, these receive special instruction such as the world is not prepared to receive. To these saintly footstep followers of Jesus the Lord says, Let not your treasures be of an earthly kind. Rather, go to the opposite extreme, and spend and be spent in the interest of others, in the service of God, in the service of His Message of Love; and thus, along the lines of the Divine promises, seek for a share with the great Redeemer, not only in the sufferings and self-denials of the present life, but also in the glory, honor and immortality of the life to come.

In support of his argument, the Pastor quoted many familiar passages of Scripture, such as "Therefore take no thought for your life, what ye shall eat; neither for your body, what ye shall put on. The life is more than meat, and the body than raiment." "Your Father knoweth what things ye have need of." Therefore, "Seek first the Kingdom of God and His righteousness, and all these things shall be added unto you." "Fear not, little flock; for it is your Father's good pleasure to give you the Kingdom. Sell that ye have, and give alms; provide yourselves bags which wax not old, a treasure in the heavens that faileth not, where no thief corrupteth, neither moth corrupteth. For where your treasure is, there will your heart be also."

**"Charge Them That Are Rich."**  
A new light was thrown upon a familiar Scripture commonly applied to the worldly rich, but mistakenly so, if the Pastor, who is a most able Bible scholar, is correct in his opinion. He declared that when St. Paul wrote to Timothy, "Charge them that are rich in this world that they be not high-minded, but in trust in uncertain riches, but in the living God who giveth us richly all things to enjoy," the Apostle very evidently referred to some of the consecrated people of God who had wealth. This wealth these were to consider merely as a stewardship, not to be disposed of according to their own worldly caprices, and surely not according to the dictum of friends, neighbors and relatives. Who must have consecrated all he has; else he is not accepted as Christ's disciple. The Pastor showed that the Apostle's charge to the brethren who possessed wealth is stated in the verses following the one under discussion—"that they do good, that they be rich in good works, ready to distribute, willing to communicate; laying up in store for themselves a good foundation against the time to come, that they may lay hold on eternal life." This he interpreted to mean that those possessing wealth should be willing to share with others of a community, somewhat along the lines of Christian communism. The word foundation, he declared, is here used in the same sense as when we say that a wealthy man gave a foundation of a million dollars for a college. His gift constitutes the basis for the carrying out of the college plans.

Thus, the speaker explained, a Christian who generously uses in the Lord's service his financial stewardship is laying a foundation for the future—a foundation for spiritual wealth; and the more of time, influence and wealth any one can lay up thus in doing good, in forwarding the interests of the brethren and of the Lord's work, the more is that one piling up treasure in Heaven. The advantage of this procedure, he asserted, is that it helps to center the heart's affections on the things above, and to wean them from the things of earth; for where our treasure is, there will our hearts be also. And thus, says the Apostle, we shall be able to "lay hold on eternal life," now proffered to us.

At first many are inclined to say, "What difference does it make to the Lord what I do with my time, money, influence, talent?" He is able to supply the needy without in the least impoverishing Himself. Why, then, should He desire His children, who are far from rich in the world's estimation, to sacrifice their little all of talent, money, time, influence? And why should He make this a test to determine whether or not they shall attain the Kingdom? What is the philosophy of it? The philosophy was declared to be this: As originally created in the Divine likeness man was tender-hearted, sympathetic. But after sin had entered the world and the strife for a living began, selfishness gradually became the predominant influence, producing hard-heartedness—carelessness of the interests of others—self-love.

**"Take Away the Stony Heart."**  
The speaker pointed out that during the thousand years of Messiah's Reign Satan will be bound, his allurements ended and the curse lifted. Then the earth will yield its increase. The stress being removed, it will be easier for mankind to learn the lessons of love and brotherly kindness, and to rise out of their present condition of meanness, hard-heartedness and selfishness—back to the glorious image of God.

This will mean the dissolving of the stony-heartedness of the human race; or, as the Scriptures put it, the Lord "will take away the stony heart out of their flesh, and give them a heart of flesh"—a heart of sympathy. All who then refuse to return to harmony with God will be destroyed in the Second Death, as set forth in Acts 3:10-23. It was pointed out, however, that while such a restitution under the favorable conditions of the Messianic Kingdom is God's provision for the world, He has a different provision for the Church, now being called and proven. By nature their hearts were hard and selfish, and as the Apostle says, they "were children of wrath, even as others." But the fact that God has called these to joint-heirship with His Son in the glorious Kingdom is shortly to bless the world does not signify that He will accept them in their natural condition of hard-heartedness and selfishness.

On the contrary, if the Church are to be the kings, priests and judges of the world, in association with their Lord and Head, the great King, it is readily seen that they must be rid of this condition themselves before they can properly be capable of helping the world up out of its hard-heartedness.

**"We Walk by Faith."**  
Several differences were pointed out between the Lord's dealings with the Church at the present time and His dealings with the world by and by. These differences are due to the fact that the Church are called to so high an honor; and correspondingly it is appropriate that they should manifest more love and zeal than will be expected of the world.

To illustrate: The Church must walk by faith and not by sight; they must voluntarily accept the Lord's providences; and voluntarily co-operate with Him in putting away the stony heart, accepting instead the Spirit of the Lord—a spirit of love, kindness, gentleness, meekness, patience and long-suffering toward all. Moreover, during the thousand years of the world's recovery from sin, selfishness and hard-heartedness, doubtless each individual will have several centuries for his gradual development. But the Father seeks in the Church class those who will give such heed to His instructions, and show such earnestness in copying His character, that they will succeed in attaining a heart condition of tenderness, sympathy, and love like unto that of the Heavenly Father. In the present years of their Christian experience.

The discourse closed with an earnest exhortation that all who are the Lord's rid up the loads of their minds, determining that with His help they will be rich toward God; that each feel less and less of earthly riches, and more and more prize the Kingdom which the Lord has promised to His faithful ones. All who attain this Kingdom will be rich toward God in the highest sense. Not only will they be rich in the possession of the highest prize that God has to give—His very best—but rich in His character—rich in love, rich in faith, rich in benevolence, rich in all that is good and great, however poor they may have been in earthly goods at the end of their career.

Fair weather is promised for tonight and Tuesday and the weather prophet states that the temperature will be several degrees warmer than that of Sunday. Many are the methods of financing trips to San Francisco these days and hardly a week passed but pedestrians westward bound pass through the city. On Sunday three young fellows from Reading, Pa., spent the day in Newark. They have a small popcorn wagon which they push and pull, and with the proceeds from the sale of the corn are paying their expenses. They left late Sunday evening for Granville on their way to Columbus.

False Alarm.  
Somebody who likes to see the ambulance make a flying trip or else somebody who was under the mental delusion that an accident had happened telephoned an alarm into the undertaking firm of Criss Bros. at 4 o'clock Saturday afternoon. E. C. Criss answered the phone, and a woman's voice reported that a man had been hit by a train at Stevens street. The ambulance driven by J. J. Tedrich proceeded to the scene at a fast rate of speed, but could find no evidence of an accident upon arriving.

Will Leave On THE FIRST CALL FROM HUNGARY

(Associated Press Telegram)  
Cleveland, July 27.—Six thousand trained Hungarian soldiers will go from Cleveland to take up arms for their country against Serbia on the first call to arms, it was said here today by leaders of the local colony. All are members of the first reserve of the Austro-Hungarian army and are associated with sixty-two national Hungarian societies in Cleveland. It was said the greater part of the volunteers could be sent from Cleveland within three days after the call to arms was issued.

"Curing" Diseases.  
"What is a cure?" asks the editor of the London Lancet in reproving doctors for the loose way in which they use the word. "Nothing ever gets completely well" is an aphorism of a great medical philosopher.

Only when the cause of a diseased condition has been removed, its effects neutralized and the organism protected against its activities in the future have we the right to speak of the "cure" of the patient, is the editor's opinion. Immunity conferred by such a cure, he says, may be only temporary.

"Where a disease process is only limited or shut off and its further spread prevented, while the causal agent remains, we should speak of arrest, but not of cure. Where grave organic damage has occurred and function has been restored by vicarious activities we should speak of the result as one of repair or compensation."

A German professor has invented a process of silver-plating dead bodies, so as to convert them into metallic images of the individuals as they were when in life. Gold plate can be used if the relatives can afford it.

## How Turner Painted.

If we are to believe Thornbury, the wonderful "Burning of the House of Lords and Commons" was almost entirely painted after the canvas was hung on the walls of the Royal academy. So certain was Turner of himself at that period that he would send to the exhibition just a laid in sketch, trusting entirely to varnishing days to complete the scheme. He would arrive at the academy as early as 4 o'clock in the morning and be among the last to leave in the evening. Unlike Lawrence, who had to step back constantly to judge of effects, Turner would work so to say, with his nose to the canvas. When Lord Hill at too close quarters looked at the houses of parliament picture he condemned it as "nothing but dab." Catching its magical effect from a just distance, however, he exclaimed enthusiastically: "Painting! God bless me! So it is!" According to Thornbury, Turner made a number of sketches of the fire, but produced two pictures only.—London News.

## Why He Played It.

Some years ago the Oldham amateurs were producing one of Handel's oratorios under the personal tuition and conductorship of the late Charles Halle. Among the orchestra was the famous and gigantic bassoon player, George Seel. At the final rehearsal, Halle went to George and, indicating several bars for the bassoon, told him not to play them on the night of the performance. George was inwardly boiling with indignation, but said nothing.

On the night of the performance George played the banned music. When the affair was over Halle went up to Seel in a great rage and, pointing to the notes, said:

"I told you to leave that out, didn't I?"

"Aye, you did," said George, "but Handel told me to put it in, and he were a better judge than you!"—London Answers.

## The Ancient Greek Theater.

The performance at Athens, in ancient Greece, began at dawn, and, as several pieces were produced one after the other, these performances lasted the whole day. On the days the performances were given all work was suspended, business put off, imprisonment and debtors were set free and arrests strictly prohibited. Long before sunrise thousands of people assembled, and outside of the theater noisy crowds of men, women and children congregated, all bent upon enjoying themselves and eager to obtain the best seats. Many of them brought their food with them, and in order to stimulate the enthusiasm of the people copious quantities of fiery Greek wine were given to impecunious citizens by wily authors, who endeavored thus to buy the applause of a discriminating public.

## Whoever Loves is Never Old.

When life has been well spent age is a loss of what it can well spare—muscular strength, organic instincts, gross bulk and works that belong to these. But the central wisdom which was old in infancy was young in fourscore years and dropping off obstructions, leaves in happy subjects the mind purified and wise. I have heard that whoever loves is in no condition old. I have heard that whenever the name of man is spoken the doctrine of immortality is announced. It cleaves to his constitution. The mode of it baffles our wit, and no whisper comes to us from the other side. But the inference from the working of intellect, having knowledge, having skill—at the end of life just ready to be born—affirms the inspiration of affection and of the moral sentiment.—Ralph Waldo Emerson.

## Life of the Sun.

Adopting the well known hypothesis of Helmholtz, which attributes the production of the heat emitted by the sun to its contraction, an idea can be formed of the sun's duration. If one gives to the sun a coefficient of expansion intermediate between that of mercury and that of gas one arrives at the conclusion that it has taken 1,000,000 to 3,000,000 years for the sun to contract to its present radius; in particular, it would have taken 10,000 years to contract from infinity to a radius twice its present radius. Finally, the sun will take 200,000,000 years to contract from its present radius to half that radius, and even then its temperature at the surface will be 3,000 degrees.—Scientific American.

The wayid waavz hwiit.  
Nor is it the song of a boy scout who is imitating the bellow of the hedgehog and at the same time whistling between his teeth. No. It is Shakespeare's lyric, "Come unto these yellow sands," etc., as rewritten after the Elizabethan style.—London Globe.

## The Point of View.

"You sang off the key," exclaimed the musical director reproachfully. "Sir," replied the young but baughty soprano. "What you mean to say is that your orchestra occasionally failed to harmonize with my voice."—Exchange.

SON KILLED;  
PARENTS ARE  
IN IRELAND

A particularly distressing fatality, by which Bert Sherrard, aged 23, a young Newark man, lost his life occurred early Monday morning at McDonald, Pa., near Pittsburgh. The details of the accident are not all known as yet, but what is known was received in Newark by Pennsylvania passenger agent J. L. Worth. Sherrard is the son of Mr. and Mrs. William Sherrard, of 28 North avenue, and has been on a passenger train on the Pennsylvania railroad for two years, having been for some time previous an Adams Express messenger on the same road. He has had headquarters at Pittsburgh and Sunday deadheaded to Steubenville to work back to Pittsburgh on the St. Louis, New York flyer No. 30. When at the interlocking station at McDonald he stepped off his train directly in front of the west bound express No. 31 and met his death.

Besides his parents, one brother, Henry and a sister Hazel survive. The body will be brought to Newark on train No. 13 this evening and taken in charge by undertakers Bazzler & Bradley, but funeral arrangements will not be completed until after that time.

A sad feature of the case is the fact that the parents are now in Belfast, Ireland, having left June 6th for a tour of that country, expecting to return August 29.

The news of their son's untimely death was cabled to them Monday morning.

The death of young Sherrard is deeply mourned by a very large circle of sincere friends in this city. He was the possessor of a genial disposition, and qualities of mind and heart which won for him the esteem of his associates and the confidence of those who were his employers.

JOHNSTOWN MAN  
BOUND OVER ON  
PEACE WARRANT

Johnstown, July 27.—Alfred Liming, aged 75, was put under a bond to keep the peace, as a result of an attack upon his wife early Monday morning with a club. She suffered two scalp wounds, but they are not dangerous.

It was said here that before her marriage to Liming, she demanded and secured a deed from him for a \$10,000 farm, as a pre-nuptial settlement. She is about 45, and neighbors say that their communal life has been blissful and that the assault was the result of a quarrel about the financial arrangements between the couple.

## HUDDEY DANGERS

Nature Gives Thelmy Warnings That No Newark Citizen Can Afford to Ignore.

DANGER SIGNAL NO. 1 comes from the kidney secretions. They will warn you when the kidneys are weak. Well kidneys send out a clear, amber fluid. Distorted kidneys send out a thin, pale and foamy, or a thick, red, ill-smelling urine, full of sediment and irregular of passage.

DANGER SIGNAL NO. 2 comes from the back. Back pains, dull and heavy, or sharp and acute, suggest weak kidneys and in that case warn you of danger of dropsy, gravel and Bright's disease. Doan's Kidney Pills are endorsed by thousands. Here's Newark proof.

Mrs. James Donnelly, 19 W. Harrison street, Newark, Ohio, says: "One of the family suffered a great deal from kidney trouble and backache. He used Doan's Kidney Pills, procured from A. F. Crayton & Co.'s Drug Store, and they made him well."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Donnelly had. Foster-Milburn Co., Props., Buffalo, N. Y. 59

## ALTAR VESTMENTS

Presented to Congregation of St. Paul's Church on Behalf of Luther League.

In a most impressive and pleasing manner Miss Florence Bowman yesterday presented to the congregation of St. Paul's church, on behalf of the Luther League, of which she is president, five beautiful sets of altar vestments. These were accepted on behalf of the congregation by E. L. Weisberger, who responded with a short address. The pastor, Rev. George Bohon Schmidt, then dedicated the vestments to the service for which they are intended, using the solemn ceremony suitable to the occasion. These are to be used at the various festival seasons, one for each season, and designated for that occasion by its distinctive color. The handiwork is that of league members, and shows untiring labor, artistic ability, choice and dainty needlework, with an evidence of skill seldom equalled. It also gives evidence of the interest taken by the young people in the church work.

## The Birth From Love

(By Mary Ellsworth Fuller.)

A tiny baby that's crying, with sweet innocent face,

Born out of wedlock, the gossips say in disgrace.

But are they this poor mother's keeper? Or whose heart is sad and torn? Show me the hands of wedlock, when Jesus, our Savior was born.

Don't sneer, condemn or censure; God knows the best they say, And each soul answers for its own sin, on the judgment day. Love suffers more than hate, and purifies the soul, Be content, for wisdom wait, let duty be your goal.

Life is summed in six small words, Good Morn'g, Good Night, and Goodby.

Then don't censure this sad hearted mother, when you hear her infant cry.

Our children may have been born in wedlock, and still be born in hate, The sinners and the sinless, are created alike and will meet at heaven's gate.

## The Thinning of Fruit.

July is a good time to do thinning in apple and peach orchards. Few growers who have tried thinning and seen its results are willing to grow a crop without making this a part of the work.

The chief object in view is to secure the largest amount of first quality fruit. Other considerations are the relief of overburdened limbs which might break from overweight, and a reduction of the strain upon the trees which maturing too large a crop would bring.

In the first place, all fruits, imperfect because of insect, disease or physical injury, are removed. Then, specimens that are in clusters or close enough to touch should be thinned out. When choice is allowed, these fruits which are most nearly uniform in shape and dominant in size should, of course, be allowed to remain. The indefinite part of the practice of thinning is the total amount of fruit to be removed.

Here is where the thinner's judgment must be displayed. He will have to take into consideration, the kind of fruit, the number of specimens on the tree, the size he desires together with the strength of the soil and the prob-

able rainfall. While some men thin apples and peaches to four, six, eight and even ten inches apart, yet it is better to adopt an elastic system which includes a consideration of immediate conditions.

## EXHIBITS OF RURAL PROGRESS.

When so many city people are rising up to tell about rapid and ruinous decline of social and moral institutions in the country it is encouraging to see some attention being called to the splendid improvements which are really being made along these lines. According to a dispatch from Columbus, an exhibit of rural progress is being prepared. It will show: fine country churches several miles from any town, splendid centralized and district schools, with maps and charts illustrating the work of county agricultural agents, and county Y. M. C. A. secretaries. Everything will tend to show the improvement in farm life in Ohio. This exhibit will be shown at the Ohio State University in Columbus during Country Life Week which begins August 10. Full information for getting all the free assistance offered by the national and state governments will be set forth on charts.
